The Premises:

Usual place by a large public car park. It's my favourite location in Milton Keynes because of the easy parking.

The Lady:

Very attractive; dark blonde hair; average height; medium - large breasts; reportedly Eastern European but in appearance can be equally from central, western and northern Europe; her profile states she's 38 but she looks several years younger; spoke almost perfect English with a hint of an accent; she's clearly intelligent and a good conversationalist.

The Story:

Angelica caught my eye when I'd visited MKE to see another lady. I didn't want to put off seeing her until another day so I'd booked a session with her back to back. I'm glad I did as I had a wonderful time which, following immediately after another excellent session, made the outcome well and truly explosive.

Angelica explained at the outset she didn't do FK which is understandable in this day and age. Proceedings started with her rubbing her body against mine for several minutes as we watched ourselves in the full length mirror. It was as though she was embarking on a mission to tantalize and tease me as much as possible and it certainly had the desired effect. She made up for the absence of fk by planting little kisses all over my face and body as if on a mission to optimise my pleasure as much as possible. Her owo was exquisite and kept me on edge for several minutes until I was ready to come whereupon she finished me by hand - she said she doesn't do cim. It was no surprise after all the stimulation I'd received that the climax was extremely powerful and went on and on and on.

I'd thought I'd seen her before but it only when I got home and checked P'net that I realised I'd seen her at HoD in 2015 and wrote an excellent FR of that encounter. Our latest session was also equally excellent and I hope to see her again someday.
