The Premises:

Nothing like described(posh building with porter/concierge and cctv) but terraced house with 2 bedrooms that was ok.

The Lady:

Very pretty Brazilian girl, about 23 and was the girl in the photographs.

The Story:

Got there slightly late due to traffic and she welcomed me in with a smile and kiss. ushered me up to the bedroom past her friend who was working on her computer. Got on the bed and she checked whether I wanted owo that would of been extra. It was at this point realised how bad her English was. Got on bed and she put on the condom and started with a blowjob . wouldn't let me touch her hardly at all and I was not allowed to give oral to her either. The language may have been the problem in that she just wanted more money either way I just got more frustrated. We had sex in a few different positions with her getting more irritated that I hadn't come so that she could get back to her phone. In the end I finished with a hand job. She did not offer a massage or cuddle and was obviously keen I should leave. In the end it was a very expensive half hour session. Typical experience of Brazilian escort, they look good but are very lazy and lie about what services they offer. I left thinking I should have known better than to go with a Brazilian but the Thai girl I really wanted has just retired.
