As per website. It is her in the photos and they haven't been enhanced as far as I can tell. Good looking lady.

The Story:

I usually go for a GFE with lots of kissing and lots of OWO. Sierra does not do either of these - but I knew that when I made the booking. On the day I thought a tall thin girl with nice boobs was worth a try - and I was right. She was wearing attractive lingerie (for a short time at least) and heels. She is tall and offered to dispense with the heels if I preferred but I chose to stick with the heels but remove her bra to get a better look at what was beneath. She has perky breasts with smallish nipples that respond to attention nicely. She removed the rest of her garments and moving to the bed she started stroking my manhood which responded appropriately which prompted her to ask 'what should I do with him'. So on with the raincoat an on with the oral. She did a sloppy blow job with interspaced with some hand wanking and deep throat, maintaining great eye contact throughout. She was laying across the bead so I was able to stroke her thighs and bum and, as I found, her pussy too which soon became wet and a place for wandering digits to explore. The rest followed as you would expect. She was keen to make the encounter good for me and offered to let me watch while she played with a toy - if I wanted.
