The Lady:

Young very pretty Nurse still in traing at University. Slim with a great body, small breasts but absolutley delightful (More than a mouthfull is a waste!) Shaven.

The Story:

A great evening of Girlfriend kissing and enjoyment. Very relaxed and open atmosphere and really relaxing after a busy day. Offers most services inclusive (including Anal) although OWO and CIM are extra.

Can not fault the fun and exitement of the evening. Amoure very willing to try anything and also previded her own toys (although we never had time to get a chance to use them). She has a delightful hsbrit of blowing (I think) over the protection whilst giving BJ and this is a marvellous experience not to be missed. Amoure was aware that some people are unwilling to try her service due to her working shifts althoughI had no problems with the times available.

A great evening, which I will repeat for longer on my next vist. A true Girl Friend experience, who never clock watched and seemed to enjoy the experience as much as I did. At east I hope that she had some pleasure from it as well. Next time will be for longer!!!!
