The Lady:

Elise is just as described on her website but even more attractive than her pictures.

The Story:

This was my second meeting with Elise, so something of a rapport already existed between us. This time at my request Elise wore the leather trousers and bra featured on her site teamed with a black body stocking, stockings and black thong. This was an extremely sexy look.

Elise undressed me first and then I dirobed her but left her trousers on. The feel of the leather as she took me prisoner in her thighs was acute. Once fully naked our session was a mix of the sensual and playful and at times "rough". Treat Elise as at least your equal and probably your superior and you will learn something new about sex, women, and yourself. Regard her as you sexual personal trainer.
