The Premises:

Victoria House is an old town house in the market town of Lutterworth just off J20 M1.

Superb, this must be the cleanest parlour I have visited and it is actually run by women.

Parking on site through archway safe and secure.

The Lady:

Eve is a true red head not usually my type but she has that wicked glint in her eye your cock can not resist! 5'7" tall, 36c tits slender figure and about 27 years old.

The Story:

This is the third time I had seen Eve and she is one hell of a fuck. Her massage is great fingernails around the balls tickles your arse and blows gently into your japs eye un-fucking real!!! Next on with the rubber and she takes all my cock down her throat(I am no fucking pee wee) and then she looks at me with my cock still buried completely in her throat. After this she sucks my cock vigorously while raking my balls with her fingernails. She gets me so horny that I never get around to licking her pussy as can not wait to sink my pork sword in those wet pussy lips. I tend to fuck her on a four poster bed which she holds onto and I pummell away to my hearts content untill shooting my wad. She is a fucking true vixen treat with respect.

Nuff Respect, seeya
