The Story:

Sam has a delightfully honest, open and dynamic telephone manner which persuaded me to see this lady, even though at the time there were no reviews. And boy - am I glad I did !

Sam likes to discuss some details of the appointment in advance so that she can make it an individual experience ... for me this included three different looks - chic, raunchy and sporty. Sam arrived on time in a little black dress, looking absolutely stunning. She kisses beautifully, has a fantastically responsive body and really seems to enjoy her 'job' and is not shy about initiating some hot action. After an hour of passion, Sam changed into a dress made of netting that hugged her curves sensationally - when she made her nipples peek through the holes, I was in heaven. After more great sex, Sam changed into blue shorts and sports bra ... oh gawd - if she did her personal training in this we'd all get arrested. More great sex followed, ending up with a delicious shared shower.

A great figure, passionate and adventurous lover, and charming and intelligent conversation ... couldn't ask for more!
