A very nice and new flat in a quiet neighbourhood.

The Lady:

Sandra had a very pretty face and an attractive figure, soft, pink skin, nice flat tummy, long legs and a great pair of tits.- I was very pleased.

The Story:

When sandra first greeted me, i was instantly turned on - I asked her to wear a little secretary number for me and boy did she look great in it.

This girl has amazing legs and combined with a short black skirt, white top and glasses = instant boner!

She gave me a long kiss on the lips and then offered me a drink and a massage to go with it. Her touch is very arousing, soft gentle hands and a quite gifted masseur.

She gave a very sexy striptease which was followed by a Bj - of a very high standard. This girl has a talent for using her tongue! top class!

we then went through the traditional missionary and cowgirl positions and eventually into doggy until completion with a CIM all over her face - she actually told me afterwards that its the part she enjoys most - having warm man juice dripping all over her face! what a turn on eh?

We both cleaned up and i still had around 10 minutes left so i decided to leave. To my surprise she actually told me to stay, and threw me onto a chair and once again mounted me into a cowgirl for round 2.

overall Sandra offered me a totally new experience. she is a girl who loves sex and what she does. she's an expert at what she does and made me feel very relaxed and satisfied with my visit. A girl who i am definately planning to re-visit.
