The Premises:

Small council type house on estate location. I had to park some distance away and walk up, but the parking space in the open was safe enough. Helen asks you to call so you can be admitted as quickly as possible... The business room is very small but has a double bed and with Helen you'd do it on a waste tip if you had to....

The Lady:

Sexy blonde with an excellent figure. She has some belly marks that betray a family but all else is in great condition. Boobs to die for.

The Story:

Helen greeted me in what is I believe her standard outfit of halter top, short black skirt, hold-ups, and nothing else. She invited me upstairs, into the bedroom where we started to kiss and that was it for the next two hours plus. The word no is unknown to Helen, and she spent the time saying yes to everything I requested. Even to the point where we were close to the 2-hour mark, still kissing like teenagers, and I said I wanted to go again, so we did, twice!! She loves male love-juice, and as things went I had every climax in her mouth, and by the fourth one I was so sensitive I could almost not bear to come! Mind you I left nearly unable to stand, in that sort of trance where you've just given everything and the tanks are all empty.

The amazing thing is that despite being a total sex bomb she is also really nice with it - we had lots of laughs and chat during and around the action, but except when getting ready to fit a condom we were always in contact, continually touching kissing and stroking. Now that's not really what I had expected, a girlfriend type experience as well as all the very raunchy stuff that Helen is noted for. There are not many girls around who can blow your socks off but charm you at the same time.

Anyway I'm already thinking about my next visit.
