The Premises:

Flat above a shop on a main road - bit exposed going in. I'd actually been to this flat ages ago to visit another girl, at the time it was split into a bedroom and lounge, now it comprised of two bedrooms the other of which was occupied. Relatively clean.

The Lady:

This girl is quite a bit shorter than the 5'7" stated on the website.

She's pretty enough I suppose though not as nice as the photos on the website, but also very slim.

Whilst not going for the Rubenesque type I prefer women with a bit of flesh on them, so not really to my taste.

The Story:

She was friendly and seemed eager to please. English isn't great, though more a problem for general conversation than sex.

After talking to her for a few minutes, we started kissing and moved to undress each other. This was when I realised just how slim she was. Sex was okayish, and she was enthusiastic enough - but really not my type.
