The Story:

A string of positive FRs some from respected contributors persuaded me to give Cheshire Companions a ring. My call was handled by Jane in a friendly and professional manner and she described the girls working that evening. I told her my requirements and I was assured that Rachel would fit the bill. Within minutes Rachel rang to firm up the booking and asked me how I wanted her to dress. A business suit would be ideal preferably without underwear I responded.

An hour later, Rachel walked through my bedroom door. I had to admit that I had a few anxious moments up to that point as I had booked her blind but there were no grounds for concern - she was as described by Jane with no hint of exaggeration so prevalent in this business. She was dressed as I had asked though with her cleavage prominently displayed above the neckline of her top. I was smitten.

After the usual preliminaries, she sat by the side of my bed making polite conversation. After a few minutes I could not control myself any further and pulled her towards me and kissed her passionately. Within minutes we were both naked and I was to discover that she was not wearing any underwear.

The rest of the session consisted of owo, intercourse in a variety of positions and more passionate kissing. With time running out, I asked to be finished by mouth though she withdrew her mouth before the climax and finished me off by hand.

All in all an excellent session and I can't wait for my next trip to Manchester to sample further delights from Cheshire Companions.
