The Premises:

I don't need to add anything to previous reports regarding the facilities of VH, except to say that a new front door with an efficient closing device would be greatly appreciated, and would also go a long way to improving one's initial impression of the establishment. The present one has a handle that's very unpleasant to operate and its constant irritating banging can be heard throughout the upstairs floor.

The Lady:

I don't have any complaints about Charlie however. She's great fun and has a lovely personality. She also has a magnificent pair of boobs that are full and firm and wonderful to hold and caress. I would guess they are at least D cup, possibly DD. She jiggles them seductively in your face, rather like a lap-dancer except that in this case you're allowed to touch them without fear of being thrown out. I didn't ask but would think she is in her thirties.

The Story:

Charlie gave me an excellent firm massage. She certainly knows how to use her fingers to best effect. Unfortunately there was no touching of any private parts (at least at that stage - that came later) Some ladies at VH concentrate on the privates almost from the start (Marie to name but one) and some don't. Perhaps it's because they think you might only be paying the basic ?12, or perhaps there's another reason. Maybe one should request it at the outset. The rest of the session was very enjoyable though I'm not going into details here. I can thoroughly recommend a session with Charlie. P.S. Sorry for the delay in submitting this report. I've been trying every few days but the mailbox has always been full!
