### The Story:

I arrived a bit late and the party was already going strong. I was greeted by Kaylee with kisses and a hug. She very sexily dressed. Had a shower and put on a sarong - but not for long. There were 8 guys there - all friendly.

After watching Kaylee sucking a guy and listening and watching to serious fucking in the other room I started with Kaylee and she sucked me without a condom - fantastic. I licked her lovely little pussy and then took her from behind. Another guy joined us and I carried on fucking from behind. I'm losing track of what happened but I think I came fairly soon. I had a quick rest, watched for a bit and then I just had to have India. She sucked and then I took her from behind, her on top and me on top. I spent a long time with India before going back to fucking Kaylee from behind with India giving me a hug and tickling my balls. Finished with Sandy who makes lots of noise - again with India encouraging me. Didn't come again but kept hard for the best part of 2 hours - must be record for me!

This was the most erotice experience of my life. I fucked 3 gorgeous, sexy girls in different positions. My cock was sucked uncovered by 2 of them. Most of all they genuinely seemed to enjoy it. India particularly made me feel as if I was her greatest lover and was very complimentary about my cock. I thought I would be nervous and unable to perform - no danger of that!.

Thank you, girls. I'll definitely see you again.
