The Premises:

Flat near Liverpool Street. I'd guess a couple of girls work here, rooms done tastefully in a light brothel style and the girls obviously just work here, but are clean, tidy and warm. Maid let me in - speaking of which, the maid that day was this beautiful and tall blonde, at first I wondered if the photos were wrong but I had lucked out .. but it was not to be. If I see her again I'll have to work up the guts to find out if she works ;-)

The Lady:

Veronika is like the photos, she greeted me in stockings and suspenders. She is accurately portrayed on the website, though her hair is now slightly shorter and tousled, which looked rather endearing.

Lovely body but she's obviously a fan of tattoos, the day I visited she had just had her lower back done as the first half of a tattoo which will obviously cover her whole back when done. This meant that certain positions were offlimits that day - and personally I prefer the au natural look.

The Story:

We started off kissing standing up whilst undressing each other, then she led me to the bed where she gave me a so-so OWO, then it was on with the condom and cowgirl - into which she put in a lot of energy.

Then a light massage with some conversation - her english was passable but she was fairly quiet.

Round two was cowgirl again - missionary being offlimits - followed by doggy.

Nice girl - nice body, not so sure about the tattoos. I got the idea that she liked to be in charge - and the acroutements in the room led me to believe that she might be up for some light domination if that's your bag.

I might return - but probably after trying some other girls ..
