The Story:

Having been away from this scene for a couple of years I wanted to treat myself to an extended visit and I'm really pleased I did with this young lady. She likes to get to know you first so we had drinks and this accounts for the somewhat low-looking charge for her time. I think she also prefers "mature" blokes so this was a bonus as there was quite an age gap between us, but she was very easy to talk to.

When we got back to the room though I had a great time. I found Susie to be very sensual and her BBBJ was fantastic, which she did to completion. I was pleased I made an evening of it and if you are after the ephemeral gfe then I recommend her very highly.
