### The Premises:

My place, so, quite messy.

### The Lady:

As pictures, what you can?t see in the pics is her smile, how long are her legs and how naughty she is. Very young, friendly and sexy.

### The Story:

Called the agency (that ?almost? never failed me!) and asked for a girl close to my hotel, as I was quite horny but full of appointments as well, so? I didn?t want to waste time waiting for her. After 20mins she was in front of my door, GREAT! As I said I was really horny, so, we went strait to the business, she helped me to take a shower and then on the bed where we had very nice sex and good blow-job. Finished with her on the knees and me standing there fucking her throat where finally I blew up my load. Terrific girl worth a second experience asap.
