The Story:

I met Anneke when she was on a short tour to London

In my humble experience this has to be the ultimate mature GFE.

We corresponded for a few weeks by e mail and I felt that I already knew her before we met

?though I have to say that the videos on her site helped a lot to prepare me for what I was in for.

Anneke was charming, intelligent, great fun and boy does she know what she is doing!

We met in her hotel room for an early evening drink which concluded with an energetic trip once round the block

I'd booked a local restaurant which we then went onto and had a great meal and conversation.

A couple of bottles of wine later it was then back to her hotel for one of the most passionate evenings of my life. Three times later we fell asleep in each others arms.

I understand that she is making a return visit in May ? I can't wait!

Highly recommended
