The Premises:

Xanadu is being improved and has a nice seating area to meet the girls. The rooms are clean and newly decorated. Area a bit dodgy at night but fine during the day - industrial area.

The Lady:

There were three girls on all of them young and good looking, Chloe, Francesca and Kira. I chose Kira, a strawberry blonde with her hair in pigtails about a size 10/12 with nicely enhanced boobs.

The Story:

Kira is really good-looking and after getting the money out of the way I got on my front for a massage. This was adequate but thats not why I was here. Turned over on my front and on with the action, it was obvious that no kissing was to be allowed and when I reached down t touch her pussy I was told that was an extra. I asked how much were extras to be told that she doesn't do extras. At this point I thought I was in for a poor punt as I like to kiss a girl and to give reverse O. However at this point Kira asked if I would like some oral to which I replied yes (of course) now although this was covered it was one of the best sessions of oral I have ever had. She took me long and deep and just kept going. Even asking if I would like her to carry on after about 5 mins. After another 5 mins we started on the real action and she is a very energetic girl, really getting into it and even frigging herself off while riding my cock. We moved on to doggy for which she was really tight and I had to slow down to avoid myself finishing early. We finished in mish with Kira playing with my nipples. Now this was a good punt with a really nice girl but there was little eye contact throughout and I prefer more intimacy in an encounter so I probably wouldn't return, but will recommend.
