The Story:

In the northwest on business which gave me an excuse to ring Cheshire Companions and explain my requirements to the very helpful Kate. She gave me the descriptions of four ladies who fitted the bill and narrowed it down to one after I provided a few more details.

Linda arrived 10 minutes late though rang me at the appointed time saying that she was having trouble finding the hotel. She was very smartly presented and well mannered and I found her a delight to be with. We spent a few minutes having an icebreaking chat before she initiated the commencement of the main proceedings of the evening by suggesting that we made a start.

I didn't need asking twice and leant over to kiss her. On putting my hand up her skirt, she announced that she wasn't wearing panties but offered to put a pair on. I responded that I would have tried to look up her skirt had I known earlier as I prefer my ladies without underwear. The skirt was soon off followed by her top and bra.

She kissed beautifully as her tongue penetrated my mouth and wrapped itself round mine. In fact, most of the session was spent in a tight embrace kissing each other while our genitals gently rubbed against one another which I found highly enjoyable. She broke away a couple of times to expertly give me owo and I reciprocated by going down on her. She seemed to enjoy the experience as she constantly adjusted the position of her genitals against my tongue while sighing with pleasure.

After 45 minutes, I thought it was time to to penetrate her despite enjoying the tight embraces. On went the rubber and we resumed our embrace and kissing. After a few minutes I thought it was time

to finish and asked her to do it by mouth. Off came the condom and she gave me more of her skillful oral but sadly cim was not on offer. As we came close to the final whistle, she made increasing use of her hand until I finally climaxed.

We said our farewells and departed with a kiss with her saying that she hoped to see me again. A very enjoyable session with a lovely lady.
