The Story:

I tried this agency on the recommendation of Agency Femme Fatale in Birmingham and asked to see the American law student, Renee that is listed on the site.

Sienna is a 'Personal Trainer' according to the web site, she is certainly VERY fit and clearly a highly professional escort, having previously worked in Australia. Sienna has a wicked sense of humour and a broad Scottish accent which is actually rather sexy.

Sienna had bought some massage oil with her and proceeded to rub it into my chest and then attend to my immediate needs with her tounge - I returned the favour and managed to make the bed very damp indeed. When she had recovered from a huge orgasm, we rounded the evening off with doggy followed my missionary.

A good girl, for a guaranteed fun filled evening!
