Holiday so functional

The Lady:

Well spoken English girl ,very tall, well proportioned with small firm bust, brunette, elegant smooth skin, aged 29. Beautifully dressed in a discreet kind of way.

The Story:

Melissa is an absolute delight to be with, she is so gentle and sensual - she walked into my room and kissed me on the cheek like a long lost friend and then on the lips, very soft. Got the money out of the way and just lay on the bed chatting - clearly a very intelligent girl working in the financial services industry. Melissa took things really slowly, no mad rush to get hers and my kit off - we drank a couple of G&Ts and cuddled some more. I felt her hand on my thigh, teasing my zip a bit; Melissa can do torture of your emotions really well. Eventually we were minus most of our clothes and I went below to eat her neatly trimmed pussy. Melissa cums really easily - big shuddering Orgasms both stimulated by tongue or cock...it is easy to see this girl just loves it.

Sex was a case of any way you want it she would oblige and make it quite exquisite in the process. Eventually we drifted off to sleep - she had set her mobile alarm to 6am and woke me by making love...so I had pussy for breakfast too.

Room service delivered breakfast at 6.45 so we sat on the side of the bed, naked and just chatted away. Melissa is just so lovely I wish she was mine for keeps.
