The Story:

Seeing her web site I was surprised to see such a long list of adventurous services on offer from such young girl. My first thoughts were yeah right, but I've seen a few very good girls from the same stable before, so decided to take my chances.

Hannah arrived at my Hotel on time dressed in a smart business suit looking like she had just left the office. After giving her the paperwork I took a quick shower while we were chatting in the bathroom. I wanted her to see me shower so that I could enjoy her arse licking, that's if she was going to do it. We moved into the bedroom and started kissing. It wasn't long before I moved down to lick her bald little beaver. Within just a few minutes she was Cumming in my mouth. She eagerly moved around and took me in her mouth, sucking with passion, I moved my legs upwards to see her reaction, and she read the signals perfectly and was straight on my balls with her tongue. Moments later she was licking my arse while wanking and stroking my dick. With her mouth going from arse to cock and back again it was the most fantastic feeling ever. Spoilt for choice I was unsure where to shoot my load her mouth or my belly. She made the decision, without asking she took my cock back into her mouth and gently started to insert a finger up my arse. It was just too much and I dumped my load in her mouth, She took every drop. After a rest and recovery time we had covered sex in a couple of positions the hour was up too quickly.

A friendly dirty little girl that seems to offer all services on her site. Wish I'd paid the extra for her to swallow and maybe had a go at anal too. Well worth a visit and without doubt one horny little minx.
