The Story:

after trying to use this agency months before and the girl never showing up I had received a reply inviting me to a discount next time of ?20. Being late gave them a try was told louise was available and would be 40 mins. 5 mins later got a call to confirm and that the price was ?120. (they state ?110). After putting down the phone i remembered my discount but decided not to worry about it. another 2/3 mins passed and I got another call saying sorry the price should be ?130 for where I am. I told them about my discount and was told, I can see that from my records and have included that in the price. I just wanted some sex so decided not to argue and just go with it. After 1 hour the girl had still not arrived and i got a call saying she would be 20 mins. 30 mins later she arrived. Took the money, took skirt,thong and top off. Bra stayed on. She made a grab for my cock lay back and pulled me on top. No kissing, no oral, no tits to play with or access to with her bra on and her holding me close with 1 arm with the other hand stopping me going deep at all. After 5 mins of this boredom with her legs static no interaction I decided to stop and ask her to finish me by hand. She wanked me terribly for 2/3 mins she said to let her know when i was ready and got me to wank myself. Thought may as well, tried to get her to touch my balls, that was for 10 secs. Told her I was about to cum and she pulled her hands away to ensure she wasn't touched at all. Before I'd finished she was standing up putting her stuff on and heading to the car. Had some real good punts recently with the english girls in london (bunnies) and at madame beckys in MK but this is the worst I ever had. Total waste of money. Ive had bad punts before but never have I felt so ripped off.
