The Premises:

A basement flat on a main road near Baker Street. Parking was ok - meters close by and the Residents Only parking was finished by 6.30. Inside was a typical London flat, sparse, but clean. Be careful of the steps down to the front door!

The Lady:

At first I wasn't sure but looking at the photos again it is the same girl - she looks a little thinner faced in real life and if you look at the photos, you can see where they have airbrushed out the tatoo round her arm. Otherwise fine - blonde, slim, nice breasts, good body.

The Story:

One of those ones where it starts a little slow and you get worried, but heats up as soon as she gets started. The first thing that threw me was the fact that she speaks fluent English with only a trace of an accent. However, this turned out to be a pleasant change. As noted before, she has a tatoo round one arm which I personally find a turn-off. And when we had a good old chat to start with, I did wonder if this was going to be a bad punt. Boy was I wrong!

Once she got started, Lolita was dynamite. She really threw herself into it - lots of licking and nibbling down below, bbbj, good kisser, appreciated time spent on her and went like a belt fed bunny! Good conversation and nice cuddles in between which was nice. We went for two rounds and that was a good number although I suspect that she could have been up for more if I had been. All in all a very good time and a great girl.
