### The Premises:

was an outcall

### The Lady:

tall attractive blond girl w/ a nice boob job

### The Story:

even though a specific dress/attire request was made in advance she came in jeans and smelt like she ate a basket of onions. If I wsnt tht horny I would hv sent her back right thn. However she has a great body and does her job ver well. DFK was offered but ofcourse not taken. She performed all services willingly and nicely. However a phone call re a new assignment during our meeting somehow triggered her to leave after an hour.

If she didnt smell of onion and did wear in deed some sexy lingerie it could hv been a nice punt I reckon. Pitty b/c ths agency is usually very good - I was disappointed
