The Lady:

Described on the web site as 38, I'd place her maybe 10 years older than that. However, looks after herself (except the smoking). Is about 5'5", very petite (I'm no good with sizes, but 8 or 10); 34-24-35. Dark (dyed) hair in a bob. Arrived in a short black (rather tarty) dress under which she wore knickers, bra and hold ups.

The Story:

She arrived a little late (took a few phone calls to convince myself she was definately coming); but when she did arrive it was worth the wait. I made it clear what I wanted, she stripped off and proceeded to give me a very good OWO, nice technique with hand and mouth, resulting in a CIM (quick peck on the lips then dash to loo to spit).

After a cup of coffee we started round two, and this time I requested deep throat, and sure got it! Lots of tonsil bashing. However despite her best efforts "little bob" was too tired, so we called it a day.

I had the munchies big time by then and Laura very kindly recommended an Indian restuarant and even drove me there!
