The Premises:

Not the greatest area but seemed safe enough. Couple of workmen outside when I walked up stairs which made me think for a moment but generally ok. Her apartment is warm, cosy and bedroom lovely and clean/tidy.

The Lady:

Fantastic body, fit and toned, lovely olive skin. It was strange that while I hadn't seen her face prior to the appointment, she was exactly as I expected. No complaints from me!

The Story:

Probably a mistake to visit on my part as I wasn't on top form at all that day and thought i'd try and cheer myself up. Wrong! Struggled for a while to get hard which you would think impossible if you saw a naked Demi with only a pair of stockings on! To be honest, the one complaint I would express was that on arrival Demi looked a bit knackered and proceeded to tell me that the job was killing her and that she had been so busy that day with other punters. I am aware of the reality of the game but I don't really want to hear that I am one of many that have been there that day to be honest! For me it was an off day but I am sure that I will go back one day to see her properly from my point of view. That is if Demi stays doing what she does. She said she was going to do it for 3 years but it was killing her after only 18 months so i'd get in quick if I were you!
