### The Premises:

The set up is pretty good, with friendly receptionists and a fair choice of girls. Getting in and out of the apartment block is quite discreet and there's plenty of parking at 50p for 2 hours.

### The Lady:

Isobella is a very attractive lady with a great figure. By far her best feature is her enhanced breasts, complemented by impressive nipples that you could easily support the weight of a wet duffle coat. I found her very chatty and easy to get on with.

### The Story:

Isobella had taken to wearing a long wig for variety, which she was happy to remove at the clients request, but I thought why not give it a go. The punt got off to a great start with Isobella asking what sort of things I like. I told her that GFE was my thing, so off we went. Her oral was with, but still pretty good and she was happy to move into the 69 position. This was followed by a few positions before Isobella subtly reminded me that we had to watch the time. We finished with some breast relief ? it had to be this type of finish with those impressive assets of hers! All throughout Isobella French kisses were excellent, with her tongue darting round like an electric eel.

I would have to say I would see Isobella again, although I think next time I'd like to try her without the wig.
