The Story:

Bit nervous as this was a new girl. Also I was running late due to horrible traffic but was cheered up meeting Mishelle. When a girl is wearing what you requested and starts off with a hug and a kiss, you know that it is going to be at least an ok punt. And things just got better. Initial fun and frolick had her moaning away which ramped up a notch when we moved to the bedroom. This girl is very tactile and loves to hold, stroke, kiss - and loves it to come right back. Excellent performance. O was without, she was happy to receive and the addition of a finger had her almost screaming. No problems with positions, at least from her - she is very supple. We took our time and had a couple of sessions with some decent conversation in between, despite her repeated apologies for her English (which I thought was fine).

All in all, a good time with a great girl. Thoroughly recommended.
