### The Story:

Let me say straight away if you want the full service you dont go to Rachels, however today I felt like being pampered so I asked for the reverse and body to body massage. Tanya gave a nice massage getting me aroused nice and slowly this proceeded for what seemed ages, she then hopped up on the couch and rubbed her lovely nipples all over my back, and my front after I had turned over, When she could see I was about to come Tanya finished me off with her hand, she then helped me clean up before showing me to the shower. Altogether a pleasant hour, but expensive for what you get
