The Story:

it doesn't help that cindy was working with a cold, seeing her continually gobbing into a tissue is not sexy. her hygiene standards are borderline OCD. Do you really need to wipe after every change in position or after a minute of oral? She seemed to be going through the motions and didn't seem to make an effort considering the fee she was charging. A word to the receptionist also dont show which girls are working if they are already booked when you get there. A complete opposite of the experience i got from laila.
