The Premises:

my first visit to Indian Palace, nice and clean flat. En-suite if you pay the top price for a shared bath

The Lady:

as the web site says : attractive, firm toned slim figure with great natural tits. Very friendly and chatty, smiles a lot. Strange cockney-type accent.

The Story:

Anjali proved to be very athletic when she went on top and with that amount of friction up and down on me I couldn't last very long. As I was climaxing I felt she was making sure I was not in too deep which seemed strange. Earlier I had said no to a massage but changed my mind when she went for the cover rather early in the proceedings. This was a mistake as she put a lot of oil on my back and this got on her tits and so when I later sucked them I got a load of oil in my mouth. This put me off sucking those lovely tits, and I would not have the back massage another time even though it was good. Her covered oral was very good and I had to tell her to slow down. All in all a good punt although I felt it was a little rushed and I left the flat after no more than 25 mins max, maybe less. I found the menu a little confusing to take in quickly, went for the massage, oral and sex for ?80. Decided not to pay the extra for reverse oral, ?10 I think. Would be prepared to see her again, although no oil next time and the 20 min service would probably be enough (?70 I think). Possibly a little mechanical and I do have my doubts over her movement when I climaxed, maybe she was making sure the condom didn't come off inside her? As others have said, it's a shame kissing is not allowed as well.
