### The Premises:

Safe parking can be tricky due to the confusing times the parking bay restrictions are worded!

### The Lady:

Airbrushed photos, nice tits, but bad skin.

### The Story:

School holidays are a crap time for agency punting I have found, I have had a string of bad experiences recently so I should do the right thing and forewarn my fellow punters.

Sweetie was advertised for ?150 when I got there I was told ctm was another ?30! I have never had that before, reluctantly I gave her my last ?30, I guess the mood was now set. Sweetie just sat on the bed and lit a fag looking totally uninterested. I moved closer and sat on the bed next to her to try and get things moving, still no change in attitude and behaviour. No DFK, no fingering, no daty (which was a good thing I suppose, read on), then she said to my horror, you have only 30 mins left! I was shocked as I had spent a good 15 mins just waiting around while she took about 4 phone calls. in between just lightly licking and grating her teet under my cock which was just bloody irritating if not painful! So I was glad to get the rubber on. I was getting more pissed off as the seconds flew by.

By now I had to salvage something out of this disaster and eventually got into mish but the fish like smell coming from between her legs was so off putting that I had to just cut and my losses and run. A little under 40 mins and I had not even had the services that I had paid for.
