The Premises:

The entrance is a doorway in a row of shops at a very busy junction, not to bad if you are not local but if you know people in the area you could be spotted entering or leaving. The area is fairly safe and nearly every major bank has a cash machine at the same junction.

The Lady:

Described as 18 which was about right, long blonde straight hair, blue eyes average bust slim figure but not skinny and quite pretty, still suffering a few 'teenage' spots.

The Story:

I took a shower before being joined by the lady. She gave me an ok back massage before she lay down and asked me to massage her which was fun. After that i lay down beside her and we started to kiss wich she seemed to have no problem with. As i fingered her pussy she gently wanked me, and after a few minutes i decided to go down on her. She seemed suprised but said it was ok. She is not shaven and i sort of regretted offering once i was down there as she did not have the sweetest tasting pussy i have ever met probably due to the fact she was coming to the end of her shift. We moved on to sex, for some reason oral on me got missed out but it did not matter as it made me last longer inside her.

After a few minutes i came. She stayed and chatted while i showered and dressed and gave me a kiss before i left. Again i have put down that i would not return but that is no reflection on the lady it is just that i prefer variety.
