The Premises:

Average basement flat. Nothing special. Dodgy location and heavy iron security gate across front door. Claims to be there for a couple of weeks as usual address is in Pimlico as the site says.

The Lady:

Not lady on the site, nor is she the lady who answers the phone. The site gives the impression of a professional, sexy Brazilian working alone but this is clearly not the case. The lady I saw was probably Brazilian but was not slim and well toned as the site would have you believe. She removed her adress and was rather wide across the hips and a bit saggy everywhere else. Couldn't speak much English either and as the lady who answers the phone speaks English perfectly with a sexy Latin accent I can only assume that there is some kind of scheme going on here!

The Story:

Went along with it though should probably have fled. I actually had a half decent time with a long massage, owo and cif but that wide load down below was a little off putting. Once the bolt was shot I got dressed and left. The lady I saw was pleasant enough but I just can't recommend because you are not getting what the website advertises. In fact not even close close!
