The Story:

No massage. Straight into french kissing then the softest of OWO but such great technique had to stop her a few times to prevent a premature end!!! To cool off went back to FK, sucking her boobs and fondling them. She doesn't receive oral (my only grumble) but will let you finger her and play with her clit after which she gets nice and creamy.

On with the rubber then me on top, switched to doggy for a great view of her ass then back to mish again during which she continued to be very nice and wet. I don't delude myself in thinking that wg's cumm with their clients (me) but I think she was getting quite excited. Furious pumping in mish while french kissing her after which I promptly filled the rubber.

This is my third time with her but definitely the best. I know her better now and am not so nervous so can hold on for longer.

See her if you can but treat her well.
