The Story:

asked for anal sex at ?80. got undressed and she returned to remove my boxers for me and gave me lots of kisses and groping. was told to lie down on bed and she produced a condom and put it onto my cock with her mouth and gave me great head and let me lick her pussy until i think she came, (her pussy wasn't that wet when i first fingered her and my face was covered in her pussy juice by the end),till my cock felt like exploding, then she told me to get behind her as she rubbed ky onto my cock and her arsehole. shortly after this it went down hill. i put my cock against her butt hole and she eased back and i took gret pleasure in watching her wince. almost 5 seconds later though she starts up with the 'ohh yeah cum baby' routine repeating it every few seconds which really puts me off and so i ram her ass as long as i could trying to cum and eventally giving up due to exhastion i lay down and she starts tugging at my cock still telling me to cum, which was really rather shit and then pushs my hand to my cock to wank! and starts kissing me but i'm still knackered and my arms dead, and still i'm getting the 'ooh baby cum' bull. i can't cum like that and thought i'd ask to wank over her ass when the maid knocks and that was it. Times up. then she started saying that i'd have to have a wank in the bathroom when i got home and started really laughing. the comment was said in a playful manner but the laughing didn't seem that playful especially with the wanker sign throw in now and then.
