The Premises:

Nice basement flat in quiet street off Kensington High Street. First timers are directed to a nearby location then following a phone call are given the address.

The Lady:

Lauren is a voluptuous blond probably in her 40s. No model figure (and if thats what you have to have leave alone)but a fantastic pair of tits plus a great sense of humour.

The Story:

Lauren is in my book one of the queens of blow jobs (OWA). There can be few to equal her skills. For instance she can sense precisely when you are about to pass the "no return" stage and hold your cock there for a tantalising few more minutes. This is a great source of pride to Lauren. in addition she calls herself the serial swallower to give you an idea about her enthusiasm for the job. Finally not only is she good company but also she is not a clock watcher;all for a modest fee.
