The Premises:

Outcall at my hotel.

The Lady:

A tallish, attractive lady, aged mid to late twenty. Suitably dressed for a cold evening visiting a client in a small hotel. Once her coat was removed it was obvious she was pleasantly curvy, not fat, but just right with a very nice pair of breasts hidden away. Later I was able to enjoy these and the rest of her taunt yet soft flesh to the maxim.

The Story:

On entering my room Annalise excused herself to the bathroom to slip into something more comfortable and reappeared shortly after to my delight. What followed was gentle and exciting, Annalise likes to please but is not submissive, she coaches one along and provides that sexy girlfriend type of lovemaking that us older ones like. Thank you Annalise and I will call when I am down in Hants again.
