The Story:

Turned up 1 hour late, not a good start. Got the money out of the way, and went up stairs. Layed on the bed a bit of kissing not your girlfriend type, but hey. On with the condom, i asked for some oral. That lasted no joke, and this is no exaggeration 3 seconds. I thought great. Asked her if she wanted to get on top first, which she did with her head face down in my neck so there was no chance to look or carress this nice body. When i asked if she could sit up i was told no your too big. Thanks but i know i am not. i dont want to sound rude or bitter after this poor punt, her pussy did not smell at all good, and this was her first booking of the night. Sod the guys luck that gets her at the end of the night. After the event i waet to the bathroom to freshen up came back in the room and she was fully dressed as though to say sorry mate that is your lot. Managed to squeeze a good massage out of her, then i thought i could be in the pub . It was painfull. after trying to make conversation i gave up So with this i asked her to leave 25 minuets stat to finish.

So if you want a corpses with the conversation skills of a gas meter, and a pussy like a grimsby trawler boat book her, if not save your hard earned money!!!!!!!!!!!!
