### The Premises:

Was at my hotel - which was pleasant enough.

### The Lady:

Stunning young lady. Tall, slim with great legs and ass...exactly as per her pictures on the website. Arrived in short skirt and top...with stockings and black lingerie beneath...not that any of it stayed on for long.

Great personality and able to hold a conversation well...when her mouth wasn't engaged elsewhere!

### The Story:

Met her at the door (difficult to get through at that time) and started with a grope in the lift and in the corridor...a positive start.

I won't go into huge detail but needless to say Helen provided all services with gusto and was more than happy to take my cock deep to the back of her throat - even asking me to pull her head and push deep...what a girl!

Oh, and she looks fantastic with cum on her face and dripping from her mouth....

Will definitely try to see again!
