The Lady:

absolutely gorgeous Indian girl (British born), late 20's, articulate, very intelligent, fun and extremely sexy. slim figure but not excessively so, beautiful bust, legs went on for miles.

The Story:

she doesn't do owo or anal, but she is such a beauty, if you are not looking for porn style, but some great girl company and the full works, perfect sensual massage, great covered bj (and very responsive to reverse oral...) followed by wonderful protected sex in al positions. She is perfection. lovely lady, would love to see her again.
