The Premises:

This was a car meet (her first ever) because i live over 60miles away and could not afford a hotel as well !

The Lady:

She is absolute perfection ! tiny little size 8 pert breasts stunning bum and a very cheeky smile

The Story:

The first part about this meeting was the incredible effort put in by the agency, the lady on the phone (Pam or Sam) could not have been more helpful and polite. This made a great change from the rip off attitude that many agencies seem to have. This is a professional out fit that suggested quality and proved they had it. Thank !!!

I asked for her to be in the blue dress shown in her pics and she was. It fit like a glove. I wont go into details to much except to say that this girl is great in every way. Very funny (she has problems with the letter D which amused me) she is a cheeky little minx that will leave you with a smile on your face for a good while later. The BJ was covered but i didnt ask for OWO so i dont know if that was on offer.

I will be back on pay day
