The Story:

It's hard to find words to explain what happened. I was expecting some good sex from the reports I'd read. On the phone she said that the reports were all from older men. That suits me, I am in that bracket. The event was totally different to my expectations. We did things - actually I let her do things - that I had never experienced before. Never in my life have I had such sensations or so enjoyed my body, and all thanks to her.

Crystal is a lovely woman - attractive both in body and personality. I left her wanting more - more sensations yes, more sex yes, but above all, more Crystal. I was totally at ease with her, I trusted her and she so far exceeded anything I could have expected I was almost speechless. She herself said that not everyone reacts the way I did. I can understand that: the moment she put the blindfold on me I had a frisson of doubt. never let anyone do that before! But it passed in an instant and from then on it was an avalanche of delight. She had me wanting things I'd never wanted before, let alone experiencing things I'd never considered before. I only wished I'd had a two hour session instead of a mere 60 minutes.

Crystal's toy collection is something special. We hit it off, and I let her use them to play with me. No-one had ever done that before, and it was amazing. My one regret was that she put so much into pleasing me I felt I had neglected pleasing her. I'll put that right next time.
