### The Story:

I went after reading a previous report saying she was good at the domination side. I have always wanted to try this and was not disappointed.

We started off with a back massage and I plucked up the courage to ask for a domination session, within a second she asked my limits and went out the room to get something to tie my cock and balls up with and told to be on all fours when she came back in.

Well they were tied up and I was given a safe word to use if it got too much, then the ?fun? begun. She administered a good spanking, made me suck her high heel, used toys on me and then made me suck on that purple dildo on her picture. I know this is not everyone?s cuppa but if it is she is very good.

Then after several other instructions I was made to lay on the floor with the door open so all the other girls could see what was going on and give their bit of abuse. While I agree this is not something you would want every time it was so horny to have four or five stunning girls looking at you all in their underwear.

This is something I will defiantly try again and take further, maybe after a further visit to see the ?sister?, two of the girls who watched, god they are stunning and I could not take my eyes of one of them who kept giving such a sexy grin. If I had more time I would of booked them there and then.

Thanks Chloe for a very enjoyable time and I hope you will keep your promise for my return visit. If you can remember? LOL
