The Story:

Straight down to business with oral - a little chat, but not much. Sucking away after having informed me at the beginning "No kissing" and "No fingering"

After a few minutes she stopped and asked "Are you going to come soon?"

I'm not one for coming in oral, so asked if we could get on to the sex to which she replied "Well you are a bit hairy" (I'm no bear, but also am not clean shaven) "I wouldn't feel comfortable - can you imagine if i was like that it would be disgusting but i will give you oral" - gee thanks

and off she started again - but what a passion killer - i lasted about another minute before i started to wilt and told her to call it a day.

Had much more fun wanking on my own!

Don't waste your money fellas!
