The Premises:

Ground floor flat in an estate of three blocks of flats, in the triangle between Borough, London Bridge and Bermondsey tube stations (but probably closest to Borough and London Bridge), off Bermondsey Street near Guy's Hospital. Slightly difficult to find, as you need to go round the back of the block of flats from the road that the entrance to the estate is on before you can see the house numbers, but it's fairly easy once you have done this.

The Lady:

Very pretty young Polish girl with a round face, a snub nose, rosy cheeks, medium-sized and pert natural breasts, and dark brown hair with dyed blonde highlights. Claims to be 21 and probably is (probably not younger than that though). Tallish for her age (about 5'6" or slightly shorter), with a cute little bit of puppy fat on her belly, but otherwise fairly slim with wonderfully long legs. She was wearing a red negligee top and red knickers with white hearts on, reddish-pink lipstick, turquoise eye shadow and slightly smeared black mascara, making her look almost like a schoolgirl who has only just started wearing makeup (works for me, although not necessarily everyone's cup of tea).

The Story:

I was a little apprehensive about seeing this girl, as my experience with low-priced working girls is that they are often a nightmare to deal with, with a long list of dos and don'ts. I needn't have worried though - if anything, I should worry that a girl like her won't be around for too long, at least not at that low a price.

The basic prices are ?40 for 20 mins, ?50 for half an hour and ?70 for an hour - I paid ?20 extra for oral without come twice.

She probably hasn't been doing this for too long either - her massage skills are nothing to shout about at a purely technical level, and she hasn't yet learnt the trick of tickling the anus and the scrotum while she massages your back. But what she lacks in experience she makes up for in eagerness and enthusiasm.

She started off with a light massage of my back and legs, before kissing and licking my nipples and chest and slowly moving down to a long, slow and light uncovered blow job. It had been a hot and

fairly exhausting day, and so I was fully expecting to be a bit quick the first time round, and tried to warn her as I was about to cum (I hadn't asked her if she did CIM and I had sort of assumed that she probably didn't). But she just kept wanking me off into her mouth regardless, and even kept on sucking and licking the tip of my willy for a couple of minutes after i had shot my load.

Then I was back onto my belly for more massage, before exchanging positions to exchange favours - kissing and licking her breasts and belly before licking her trimmed pussy. She seemed to enjoy it (which is just as well seeing as this is an essential part of my ritual). Then I came back up and sucked her breasts while fingering her pussy like a jackhammer as she groaned some more.

Finally, she asked me to fuck her, and I started off in mish while french kissing her (not DFK, but deep enough to actually feel like kissing), before trying for a while in doggy stryle. Her best position, however, was her third one - on top - before taking off the love glove and finishing me off with a slow and final OWO CIM.

This girl is great, she hasn't been around for very long and might not be for much longer either, so come and see her while you can.
