The Premises:

Very nice flat in central London. Discreet entrance on a quite street very near the tube station.

The Lady:

Tall, curvy, dark haired, beautiful face. The website photos do hide a couple of small tattoos as well as a very large C section on her abdomen. The photos also make her eyes look amazingly blue which they weren't.

The Story:

She was nice she put me at my ease offered me a drink etc..

The problem was the sex was a bit mechanical and lack lustre. Her phone went off in the middle and she answered it.

After I'd cum I'd have liked to go again but she said the time was up when I checked my phone out side "which I'd turned of" I still had half an hour.

Perhaps if your a bit more forceful and take control she's better but I cant recommend her on the strength of a hypothetical.
