The Premises:

Very clean, discrete and as always safe.

The Lady:

Nina is an absolute stunner! The type of girl when you walked past her on the high street you take a second and then third look.

The Story:

A visit that was so good that I had to submit the report right away.

This is my third visit to Ego and as always very professional with that important discrete set up. I opted for the full body scrub and full body to body.

I must say that I have had a few massages and this was hands down the best ever. It is was a massage rather than a rub, considering that I am a large guy Nina was amazing. The 45min went really quick and the entire session ended far too quick.

Another visit is on the cards soon.
