The Premises:

Smart flat in a suburb (South London/Surrey). Complicated to access by public transport. A long walk from nearest rail station.

The Lady:

A very fit young lady. Toned body, classy hair, perfect breasts, labia to die for, pierced as described.

The Story:

The crowded journey out from London by commuter train and the walk from the station in hot weather just about finished me before Abi and I started doing anything. Unfortunately my mood didn't revive during the date: it was hard to get turned on, even by such sexy comapny.

Individual sex acts were great, 10/10: e.g. OWO, RO, RIM....

However, I couldn't assemble a narrative for the date which might have kept my arousal at as high a level as it was in the days while I was arranging it.

The quality of the sex was really high, so if Abi'll see me I would return, better prepared
